COVID Vaccinations

The COVID vaccine will consist of 2 vaccinations, 21 days apart.

If you do require any other vaccinations these will NOT be done at the same time, as we have to allow at least 7 days between the Covid vaccination and any other vaccination. *For example: Flu.*

If anyone over 65 still requires the Flu vaccination please contact the surgery on 01225 613100, then option 1 to be put through to reception.

We will be in contact with all of those who are eligible for this vaccination at the start of the new year. You will not be missed out.

Please do not contact the practice regarding booking the Covid vaccination.

We will confirm the location of the vaccination on the time of booking the vaccination. As it's out of our hands and we are awaiting further information.
